

#1 Selling Marine Pumpout System in America

SaniSailor cvx400d

The SaniSailor cvx400d is designed to be used as a high vacuum, high discharge pumpout system. This system is for installations requiring lift up to thousands of feet horizontally. The cvx400d is more than just a lift station. With the capability of high vacuum and high lift at high flow rates, the cvx400d eliminates the need for a separate lift station

The SaniSailor cvx400d is used as a dockside pump station. It is designed for rugged use where higher frequency of use and higher capacity applications are required. The cvx400d develops a high vacuum which enables it to pump out boats located hundreds of feet from the pumpout station.
