

*#1 Selling Marine Pumpout System in America*

## The SaniSailor Masterline X400

The Sanisailor Masterline X400 Central Vacuum Systems is designed to be used as a high vacuum, high discharge pumpout system. This system is for installation requiring a discharge capable of up to 350 feet vertical or up to thousands of feet horizontally. The Sanisailor Masterline X400 is more than just a lift station. With the capability of high vacuum and eliminates the need for a separate lift station.

The Sanisailor Masterline X400 Central Vacuum System is used as a dockside pump station. It is designed for rugged use where higher frequency of use and higher capacity applications are required. The SaniSailor Masterline X400 develops a high vacuum which enables it to pump out boats located hundreds of feet from the pumpout station.
